THE PROJECT

Owner of Point A Hotels, Queensway Group Ltd is a family-owned business that believes sincere hospitality goes a long way. Point A Hotels is a collection of centrally located hotels which are stylishly designed and lovingly looked after, all without an inflated price tag. Multi-discipline designers, Leisure Concepts, were tasked with designing the interiors for this new brand.

THE FURNITURE

To get all the amenities a hotel guest requires into such a small room footprint; Leisure Concepts designed a modular panel system which Nova Interiors were tasked with developing. Durability was key which is why Kydex was the material selected to cover the panels in. Large mirrors were used to create a sense of space within the room, and graphics were printed on the face to add some character to the rooms. The system incorporated a drop-down desk, hanging space, comfortable fluted headboard, bedside tables and safe storage. The result is durable rooms with personality and charm which guests are happy to recommend to others.
