### THE PROJECT

In the heart of the Moretown development, a short walk from the Tower of London, Moretown Belle is an energetic restaurant setting where guests are able to view a variety of sporting events. Viewers can be assured comfort from the banquette seating, designed and manufactured by Nova Interiors.

## BANQUETTE SEATING

Belle Pubs and Restaurants utilised Nova Interiors' bespoke production knowledge of banquette seating to develop straight, L shaped, C shaped, inverted C shaped and booth banquette seating. Nova Interiors manufactured each unit, upholstered with Muirhead leather for maximum comfort and durability. The bright, contrasting banquette units were all complemented with stained oak veneer kick boards.
