### THE PROJECT

Owner of Point A Hotels, Queensway Group Ltd is a family-owned business that believes sincere hospitality goes a long way. Point A Hotels is a collection of centrally located hotels which are stylishly designed and lovingly looked after, all without an inflated price tag. Multi-discipline designers, Leisure Concepts, were tasked with designing the 5th generation of bedroom interiors to give the brand a vibrant new look.

## THE FURNITURE

To get all the amenities a hotel guest requires into such a small room footprint; Leisure Concepts designed a compact system which Nova Interiors were tasked with developing. The system incorporated a drop-down vanity unit, wide and narrow bedside storage units with hanging space, stylish contrast buttoned headboard and round back lit metal mirror and TV housing. The result is durable, compact rooms with personality and charm which guests are happy to recommend to others.
